

Instructions on how to get to Access codes or upload certificates in Affinity

If you do not have an account, you have to create one by clicking [HERE](#). After you create an account, log out to get the certificates before completing the RMA. Then follow the directions below. If you go to the direct [link](#) to register, you need to click on “Back to Main Page”

On the following screen, click on “User Login:” and then log into your Washington Affinity account.

After you log into your Washington account, click on the Certificates tab to see the links, access codes, and where to upload your certificates.
